

I am requesting that the FCC allow the American People to keep our FM station, K-Love. The station brings positive and encouraging Christian music and information to me that helps me stay in touch with my Christian views in a World that is sometimes negative.

The radio FM station, K-Love is a listener supported station. Therefore, the communities it broadcast in have the support of the community. I have actually seen this station by God's Will affect some of the most down and out, alcohol and drug affected people bringing peace to their lives.

If the FCC takes our FM station K-Love away, and replaces it with a LPFM broadcaster providing other programming, the FCC will have infringed upon the American People's right to sponsor and listen to a great Christian radio station such as K-Love.

I pray that the FCC will make the decision that greatly affects the rights of the American People, and chose not to eliminate our FM station K-Love.
